REQUEST FOR RECONSIDERATION

Section 101 rejection of claims 38-48

The Examiner maintains the rejection of claim 38 because the claim allegedly includes a recitation of a propagated signal in lines 1-2.

Applicant suspects the Examiner has overlooked that portion of the amendment to claim 38 deleting the reference to a propagated signal. Accordingly, claim 38 is believed to be in a form that overcomes the section 101 rejection. Applicant therefore requests reconsideration and withdrawal of the section 101 rejection of claim 38 and all claims dependent thereon.

No additional fees are believed to be due in connection with the filing of this response. However, to the extent fees are due, or if a refund is forthcoming, please adjust our deposit account 06-1050, referencing attorney docket "12587-008001."

Respectfully submitted,
